

HEALTH SURVEILLANCE

CASE STUDY

FOOD AND BEVERAGE INDUSTRY

LATUS

Because **Good Health**, is **Good Business**

Multi Health Surveillance for Dewlay Cheesemakers Ltd

DEWLAY®

Operating within a factory environment, Dewlay Cheese places a strong emphasis on the health and safety of its workforce.

By partnering with Latus Group, Dewlay Cheese successfully implemented a thorough and efficient **audiometry** testing program for **65 staff members**. The process not only provided the company with **critical insights into the hearing health of its workforce** but also allowed for **proactive intervention** to minimise the risks associated with prolonged noise exposure.

The collaboration with Latus Group provided the company with critical data to protect its employees from the long-term effects of noise exposure, ensuring a safer and healthier workplace.

BENEFITS

- Early Detection of Hearing Loss
- Compliance with Regulations
- Improved Employee Wellbeing
- Prevention of Future Hearing Damage
- Reduced Costs and Liability

Great initial contact and discussions around what we needed and how the process worked etc.

Technicians on site were polite, professional and worked diligently to get through all the staff needed.

Would recommend.
