## Multi Health Surveillance for Emerald House Associates

To ensure the health and safety of its workforce, Emerald House Associates partnered with Latus Group to conduct a comprehensive multi health surveillance program, covering **biological monitoring, skin assessments, and spirometry** for **44 employees**.

The initiative was implemented to detect early signs of occupational health risks, maintain compliance with health and safety regulations, and foster a safe and healthy working environment.

The early detection of health issues allows for timely intervention, ensuring that employees remain healthy and engaged in their roles. The program reinforced a strong safety culture within the company and demonstrated Emerald House Associates' dedication to its employees' well-being.

### BENEFITS

- Early Detection of Health Concerns
- Health Risk Management
- HSE Compliance
- Improved Workplace Safety and Culture:
- Reduction in Long-Term Health Risks

***“Michael, who was carrying out the health surveillance on the day was exceptional - several members of the team approached me to mention how reassuring and professional he was.”***
