## DAVID HARPER LTD

David Harper Ltd engaged Latus Group to carry out a **comprehensive health surveillance program**. The program focused on safeguarding the workforce's well-being through **audiometry, Hand-Arm Vibration Syndrome (HAVS) testing, spirometry, and skin assessments for their employees.**

The company's dedication to health surveillance will continue to play a vital role in its operational strategy, ensuring that every employee can create and innovate in a secure and supportive environment. David Harper Ltd remains committed to excellence—not just in the art it creates, but in the safety and health of the talented individuals who bring that art to life.

***“The technician was brilliant, very calm, polite and friendly and was really reassuring for the team.***
