Fix Auto

FIX AUTO

Fix Auto partnered with Latus Group to conduct a comprehensive health surveillance program. The program included **Audiometry, Spirometry, HAVS Tier 2, and skin tests.**

This initiative included **audiometry (hearing tests), spirometry (lung function tests), HAVS Tier 2 assessments (Hand-Arm Vibration Syndrome), and skin health checks** to ensure employees remain fit, healthy, and protected in their roles.

Fix Auto has demonstrated its **commitment to proactive health management, regulatory compliance, and employee satisfaction.** This forward-thinking approach ensures a **safe, supportive, and thriving workplace** for years to come.

“Great service especially in comparison to other providers.”

All communication was great. Very quick and efficient and the reports portal is excellent.”
